D. O. HIBBARD

MADISON, WISC.

March 2nd, 1925.

Dear Mr. Noe,

In the mail this morning I received from Greece five coins. I nearly looked holes through them for they re the first I have seen in all these month. Mine are still stored in New York and I have not been able to get hold of the m yet.

The old man has sent me one that is pretty good. He has a ripping price on it and wants me to sell it for him. He says it is worth L 35 i.e. Sterling. It is a good looking coin and of course I do not know how rare it is. What is the best thing to do about it? He calls it,

Amphiaktyonos Karystos -tetradra ?

He sent me a Rhodian silver monodra, Bioton didra silver head of Jupiter, Illvdos mono silver, anda copper Erytherea.

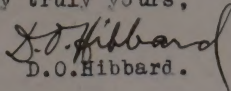

The Am Ka is a beautifully preserved coin. The reverse is very perfect and complicated as the dickens. The head is like the Egyptian Queens back of head draped and faces left. The seated figure on the reverse seems to be seated on a pile of Karpooisia held together in a net bag and she has a staff over her shoulder that looks like it might be a young tree. Rt elbow rests on a half hidden harp etc.

I sure am sorry not to have been able to see you again before I left New York. Harry Hill and I had an appointment to go out one day but we couldnt make it and had to call it off. He wanted to see you too. Junior was much disappointed also. We are out here for the winter and the children are in school and happy. It is a great thing to be back home.

A friend of mine by the name of Ferris says you identified some coins for him. He has the fever too but it hit him in the orient and his coins are largely Chinese and Indian and rather modern. The Historical Museum here has a Ptolemon tetra dra and that is their collection of Greek coins.

My regards to the President. I have not forgotten your offer to look over my coins and shall hold you to it when I get a chance.

Very truly yours,

D.O. Hibbard.

Mar. 5, 1925.

Dear Mr. Hibbard:-

Your letter of the second is at hand, and it was surely good to hear from you. What you write about the coins sounds interesting, but the only thing to be done is for you to send on the piece or pieces, because without seeing them it is impossible to tell whether or not they are right. If the piece of the Amphictyonic Council (Delphi) is genuine, Mr. Newell might take it at thirty-five pounds. But, as he is sailing on the 14th, no time must be lost. Will you send it on by registered mail at once, please, along with the others, if you so desire.

I, too, am disappointed that you could not get up here before going westward. Please give my regards to your wife and to Junior. We shall be very glad to see you when you get to New York.

Yours ever,

D. O. HIBBARD

March 7th 1925.

Dear Mr. Noe;-

Yours of the fifth inst. came this afternoon
and I am sending the coins by registered mail at once.
There are five of them.

1 tetra	Silver
2 Mono	"
1 Di	"
1 bit	Copper

The four pieces are mine and I would like
to know what they are worth and if you know, something
of the value. I know nothing about the tetra except what
the old man says. He calls it Amhietyon of Karystos.

I hope the coins reach you befor Mr. Newell
sails. Please wish him a pleasant journey from my part.

Very truly yours,

D. O. Hibbard
D. O. Hibbard.

P.S. Is Mr. Newell going to
Athens? He should have
a letter to the old man if
he is. *204*

Mar. 12, 1925.

Dear Mr. Hibbard:-

Your coins arrived day before yesterday, and its sorry I am to have to tell you that the large piece of the Amphictyonic League (Delphi) is a Christodoulos fabrication. I'm mighty sorry. I hope you haven't advanced anything on it and can return it without any diffi/culty.

The other pieces are not uncommon coins of slight value. Those of Rhodes and Boeotia I should value at not more than one and two dollars respectively. The other two should be well under a dollar apiece.

I am returning the coins herewith, registered. Wish I might have given you a more pleasing report.

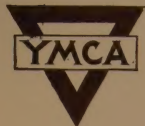

Yours very sincerely,

Gentlemen-

Some time ago I wrote Mr. Noe as Secretary of the Society. I have not heard from him and am writing to learn whether he may be absent or not.

I will appreciate a reply indicating where Mr. Noe may be reached.

Dear Mr. Hibbard:

Your letter came this morning, and apparently the previous one you mention has gone astray, for I have heard nothing from you for several months - since you went West, in fact; so, if you have kept a carbon of the missing letter, just send the carbon along!

I saw Mr. Thompson two weeks ago, and had great fun in renewing things Athenian.

I wish you did not keep yourself at such arm's length.

Dear Mr Noe:

I have forwarded to you by American Express today my entire collection of coins. I am sorry that they are in such shape as I fear you will find them in but I have not been able to find time to properly straighten them out since I returned from Europe. The coins in each box are registered, and you will laugh when I tell you how they are registered, under the number on the box by means of tissue paper impressions. True I know more about the coins than this method of registration would indicate but I have not been able to put the time on the coins and put them in the shape I would like to have them.

I do not know to what extent you would feel that you or your office, or Mr Newell, could interest yourselves in this collection but let me say this "with all the stops out and my feet on the loud pedal" if you classify any of my coins please do not mix them up again but kindly wrap them in such a way that I will have the benefit of your having separated them properly during your examination.

Regarding the sale of the coins I would listen very intently to any proposition that would be made to sell them on a reasonable basis. I hope that there are some

Dear Mr. Hibbard:

Your letter of the 20th was awaiting me on my return from a lecture trip, and the box of coins was also here.

Mr. Newell and I have gone over the coins very carefully today; and placing a fairly liberal valuation on them, the total amounts to \$125.00. I hope that this is as much as you paid for them. There were a few counterfeits, but the chief difficulty was the poor condition of most of the pieces - and especially of those which were rare.

Mr. Newell is willing to offer you One hundred and twenty-five dollars (\$125.00) for the collection. He would select those which might be of use to him, and sell the remainder along with his own duplicates, trusting to come out alright by so doing.

I doubt very much that you would have an offer for more than this amount from any dealer; and if you auctioned them, you would, of course, have to pay thirty per cent commission.

I do not presume to advise you, but if you decide to part with the collection, it would be advantageous to reach a prompt decision because Mr. Newell will be leaving very shortly for a trip to Europe.

With cordial regards to Mrs. Hibbard,

I have your good letter regarding my coin collection and I certainly thank you and Mr Newell for having gone over them. I am gratified that you can mention the fact that there are some rare coins included. I had hardly hoped for that.

With regard to the sale of the coins. I am not inclined to consider it seriously. The valuation that you have placed on them is sufficient so that the cost to me is well within the amount though there is no temptation to sell them at the price. If they were worth \$200 there might be some temptation to let them go.

Thanking you, I am

in in the cover of a snuff box which the present owner

Dear Friend Noe-

Some time ago I write you regarding the coins sent on to you for Mr. Newell and I wonder whether you received the letter. I told you that I really did not remember what the extra coins were. If you have not been able to check and tell me, just send the balance of \$25.00 and we will call it square. It was careless of me not to keep a better track of the coins.

In the same letter I wrote you concerning a medal or disk belonging to one of our neighbors. If you did not receive that letter I doubt if I can tell you of that so you will understand. I sent you a rough sketch of the medal. My friends would like very much to know whether the little disk has any history and I thought you might know if anyone would.

Sorry this letter is such a mess but it is noon and we are in the midst of a Chamber of Commerce drive and I am alone in the Y office taking this time to catch up on correspondence all by my self.

We hope you folks are all well and happy. I have to hump in this C of C drive as my wife is working on another team and it looks like she was going to beat me. You may know from this that we are all well. Haven't just heard that J.F. Machotka who was my associate in Athens is on his way home. We all come back. We have no medal that is just like this and I am at a loss. Without seeing, it would be very difficult for us to tell you more about it. Is there any decoration to the back of it.

Mr. Newell tells me that he is sending you a check under separate cover. I trust that this will reach you in good season.
